ICTS – Academia Industry Partnership in Science - ‘Clinic’

What is a clinic?

- A **Clinic project** consists of an unsolved scientifically-oriented problem arising from a real-world situation.
- These problems may be proposed by industry, government, research organizations or business.
- The problem solvers are a group of students who work together as a team with a faculty mentor.
- The end product of a clinic project can take a variety of forms, e.g. a paper, a patent, an algorithm, computer code etc

Stakeholders in a clinic
